

Policy

STANDARDS OF PROFICIENCY

The superintendent, in consultation with teaching staff, shall develop criteria for evaluation, indicators of achievement of the criteria, and acceptable standards of achievement for all grade levels, courses and programs offered by the district. The criteria, indicators and standards must be related to district goals and objectives. Parents/guardians shall be notified in a timely manner whenever their child appears in danger of failing to meet required proficiency levels. Parents/guardians shall be strongly encouraged to participate in designing remedial plans for their children.

These standards of proficiency shall include but not be limited to those New Jersey Student Learning Standards identified by the State Department of Education and shall form the basis for the district's grading system.

By the date required by law, the superintendent shall annually report to the board and the community at a regularly scheduled meeting an evaluation of student achievement toward meeting district and school goals and objectives.

The superintendent shall consider additional factors contributing to student achievement such as indicators of student and educator engagement, school climate and/or safety. The superintendent may consult with the appropriate staff member in the development and assessment of indicators of engagement, school climate and/or safety, such as teaching staff, the affirmative action officer and the anti-bullying coordinator and/or specialist.

The board shall administer the applicable Statewide assessments, including: the elementary assessment component for grades three through five; the middle school assessment component for grades six through eight; and the alternate proficiency assessment for students with severe cognitive disabilities. The Statewide assessments shall be administered according to a schedule prescribed by the Commissioner.

Low student achievement shall be regarded by the board as an indication that revisions are needed in educational programming, general strategy, staff resource use, staff evaluation, and/or other aspects of the learning program.
