

## Middle School Science

The following items are for individual student use and should come to class with them daily.

1 binder devoted entirely to science

1 set of tab dividers

1 pair of earbuds or headphones

pencils

note cards (lined 3"x5")

post it notes (preferably extra sticky)

Rather than ask for each student to bring a set list of class supplies, I wanted to try something new. I have created a wish list on Amazon for middle school science supplies. Items there vary in price and complexity, from hand sanitizer and glue sticks to DNA models and frog specimen for dissection (I hope to get enough frogs to have the 7th grade dissect this year, YAY!) It is my hope that anyone who is able will go to Amazon and buy the supplies of their choosing for the classroom. In fact, at holiday time, teacher appreciation week and end of the year, the Amazon wish list could be used to buy a gift for classroom use, rather than specifically for me. I love getting new supplies and learning tools! Here is the link to my Amazon wish list:

I'm Looking forward to another year of fun and discovery!
