understanding and appreciation of self, others, the natural world, and constructed environments. Visual arts influences understanding of and responses to the world.  Through artmaking, people make meaning by investigating and developing awareness of perceptions, knowledge and experiences.  Essential Questions:
How do artists work? How do artists and designers

determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error? How do artists and designers care for and maintain materials, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling materials, tools, and equipment? What responsibilities come with the freedom to create? How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?

- What conditions, attitudes, and behaviors support creativity and innovative thinking? What factors prevent or encourage people to take creative risks? How does collaboration expand the creative process? How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and criteria are needed to formulate artistic investigations?
- What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does collaboratively reflecting on a work help us experience it more completely?
- What methods and processes are considered when preparing artwork for presentation or preservation? How does refining artwork affect its meaning to the viewer? What criteria are considered when selecting work for presentation, a portfolio, or a collection?
- How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of

their lives and the lives of their communities through artmaking?  • How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art? What is visual art? Where and how do we encounter visual arts in our world? How do visual arts influence our views of the world?

	Possible Assessment and Instructional Modifications		
Special Education	At-Risk	Gifted	English Language Learners
*All teachers of students with special needs must review each student's IEP. Teachers must then select the appropriate modifications and/or accommodations necessary to enable the student to appropriately progress in the general curriculum.  Possible Modifications/Accommodations  Extra time on assessments  Use of a graphic organizer  Use of concrete materials and objects (manipulatives)  Opportunities for cooperative partner work  Assign fewer problems at one time (e.g., assign only odds or evens)  Differentiated center-based small group instruction  If a manipulative is used during instruction, allow its use on a test  Provide reteach pages if necessary  Provide several ways to solve a problem if possible  Provide visual aids and anchor charts  Tiered lessons and assignments  Highlight key directions  Test in alternative site  Use of word processor  Allow for redos/retakes	The possible list of modifications/accommodations identified for Special Education students can be utilized for At-Risk students. Teachers should utilize ongoing methods to provide instruction, assess student needs, and utilize modifications specific to the needs of individual students. In addition the following may be considered:  Additional time for assignments Review of directions Review sessions Use of mnemonics Have student restate information Provision of notes or outlines Concrete examples Support auditory presentations with visuals Use of a study carrel Assistance in maintaining uncluttered space Peer or scribe note taking Space for movement or breaks Extra visual and verbal cues	<ul> <li>Enrichment projects</li> <li>Higher-level cooperative learning activities</li> <li>Provide higher-order questioning and discussion opportunities</li> <li>Tiered centers</li> <li>Tiered assignments</li> <li>Alternate assignments/ enrichment assignments</li> <li>Provide texts at higher reading level</li> <li>Extension activities</li> <li>Pairing direct instruction w/coaching to promote self directed learning</li> </ul>	<ul> <li>Continue practicing vocabulary</li> <li>Choice of test format (multiple-choice, essay, true-false)</li> <li>Vary test formats</li> <li>Read directions to student</li> <li>Provide study guides prior to tests</li> <li>Clarify test directions, read test questions</li> <li>Read test passages aloud (for comprehension assessment)</li> </ul>
